DIRECT DISSEMINATION

SECRET/CONTROL - U.S. OFFICIALS ONLY

50X1-HUM

- Alumina plant (For details see Sketch "C".)
- Three oil pipelines above the ground.
- 6. Pump station to supply the alumina plant.
- Pump station to the oil pumpline. 7.
- 8. Mole for ships
- 9. "Porjes-farm", now a State Farm.
- 10. Narrow industrial railway line between the alumina plant and "Big Colony" (Hungarian: "Nagykolonia") (For the latter see under 11. below).
- The "Big Colony" is a new settlement erected for the workers! families 11. of the alumina plant and of the oil refinery plant.
- 12. Almasfüzitő lower railway stop.
- Oil refinery plant No. II. (For details see Sketch "D".) 13.
- 14. Workers' homes.
- 5 underground oil pipe lines. 15.
- 16.
- Pump station for the oil pipelines.
 Oil-storage tanks built to hold twenty tons of oil each. 17.
- 18. Pump station to supply the refinery plant with water.
- 19. Mole for ships.
- 20. An arms factory which has been enlarged. Situated on the north bank of the Danube and about 1.5 km. distant from the Danube. Some new structures are being built. Only the chimney stacks can be seen from the ships.

- AVH station occupied by 18 AVH men.
- Directorate. b.
- Laboratory. c.
- Post office. d.
- Refinery tower. Θ.
- ſ. Oil tanks.
- Boiler house and electric power station.

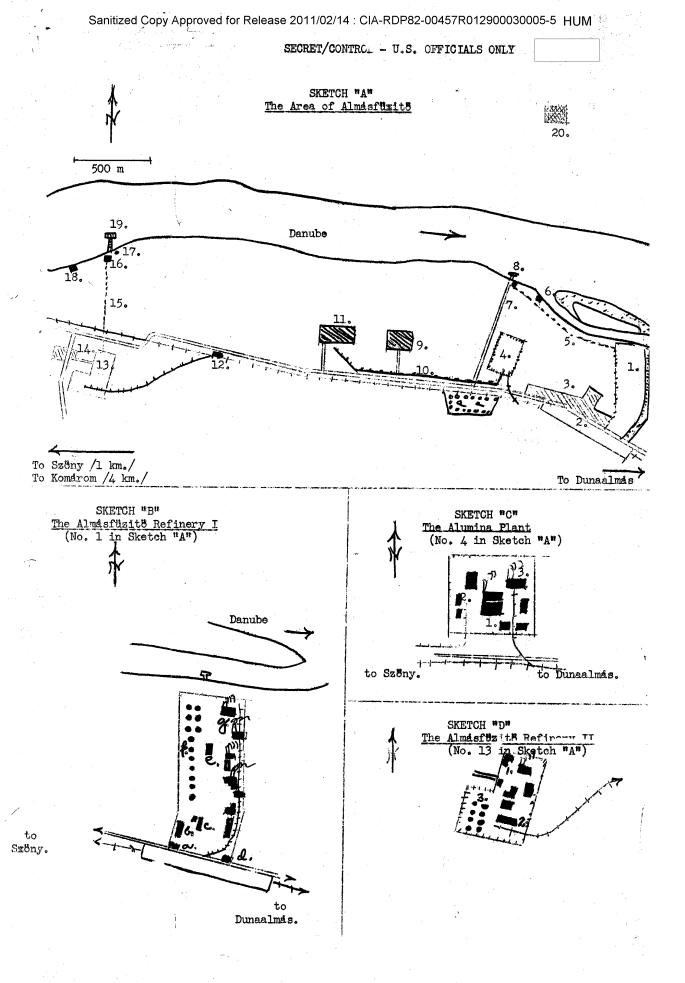

Sketch "C" 8

- l. Directorate
- Offices
- 3. Electric Power Station.

Sketch "D":

- ì. Directorate
- Refinery building
- Oil tanks.

Unmarked buildings: unknown.
